

Simply designed and highly convenient. The wall help button, Pico is a perfect add-on to an existing Personal Emergency Response System.

Place anywhere for added convenience.

With a 200 m [650 ft] range, Pico can be placed anywhere; users can call for help regardless of their location. Mount Pico on the bedroom or bathroom wall. Since users can receive help from these locations, Pico is especially useful in situations where they forget to wear or bring their pendants.

Possible locations to place Pico:

- Bathroom or shower wall
- Kitchen
- Beside the bedside table or in bedroom
- Living room
- Near light switches
- Side tables
- Pool Area

Easy access and simple design.

Compact, simply designed and featuring a large grey button, Pico is easily integrated into the home. With a battery life greater than 5 years and low battery detection alert, there is little need to worry about power.

Detailed Features

- Cancels help calls or false alarms with an 8 second press of the help button
- Able to answer incoming phone calls on the home phone line with a press of the help button
- Low battery detection
- Cleanly designed with a recognizable grey button
- Can be placed in nearly any location for quick access
